

## High School Literary Magazine, Newspaper and Yearbook Origination Dates

Compiled by Bruce E. Konkle, Ed.D., University of South Carolina- Columbia

A preliminary– but fairly extensive– list of nearly **6,050** origination dates between 1777 and 2017 of literary magazines (regular typeface/LM), *newspapers* (*italics*/NP) and yearbooks (underlined/YB) produced by high school (HS) students, all available in various archives\*, to show patterns of start-up years and eras. Publications are listed alphabetical by school under its year of origination. Discrepancies, when applicable, are also noted. Some early school newspapers might also have included poetry and fiction, giving them a ‘literary magazine’ format; if they morphed into a school newspaper or newsmagazine, however, they are noted as a newspaper here in this listing.
